

## Product Datasheet

### Elisa Coating Stabilizer orb348581

<b>Description</b>	Elisa Coating Stabilizer
<b>Tested Applications</b>	ELISA
<b>Hazard Information</b>	Non-Toxic
<b>Target</b>	Elisa Coating Stabilizer
<b>Form/Appearance</b>	Liquid (sterile filtered)
<b>Storage</b>	Store at 4°C for up to two weeks. For long term storage, aliquot and store at -20°C, avoid freeze/thaw cycles.
<b>Note</b>	For research use only.
<b>Purity</b>	This product contains highly purified
<b>Expiration Date</b>	12 months from date of receipt.
<b>Application Notes</b>	This product is a "ready-to-use" 1X solution for stabilizing ELISA plates for storage prior to ELISA. After the addition of blocking agent, wash the contents of ELISA microwells and add a sufficient volume of ELISA Microwell Coating Stabilizer to each well of the microplate. Let stand for 30 minutes at room temperature. Aspirate contents of each well and allow the plate to dry. Store appropriately for future use. This buffer contains phosphate buffered saline and proprietary reagents to stabilize and preserve ELISA plates. A proprietary combination of stabilizers and preservatives is used that is azide and mercury free.
