

Product Datasheet

Biorbyt-10000 orb93620

Description	The number of bands in this product is 7. Biorbyt-10000 is ideal for determining the size of double-stranded DNA from 250 to 10,000 base pairs. The ladder consists of 7 linear double-stranded fragments. The 2,000bp fragment is present at increased intensity to allow easy identification. All fragments are precisely quantified and mixed during the production. For 5 µl loading, all fragments except 2,000bp are 50ng. The 2,500bp fragment is 125ng. This ladder is pre-mixed with loading dye and is ready to use.
Tested Applications	PCR
Hazard Information	Non-Toxic
Target	DNA Ladder
Concentration	85 ng/µl
Storage	Store at 4 °C for 12 months. Aliquot and store at -20 °C for 24 months.
Note	For research use only.
Expiration Date	12 months from date of receipt.
Application Notes	Range: 250-10000 Experiment Notes: We recommend loading 2-5 ?/lane.
